  - Blender

## ABOUT ME

UI/UX designer and Frontend developer with a strong focus on creating intuitive and visually refined digital experiences. I combine aesthetic thinking with functional implementation, turning ideas into prototypes and responsive web interfaces. With a background in brand identity and 3D animation, I approach design and development strategically – balancing usability, clarity, and visual impact. I enjoy learning new things and am always open to exploring new technologies.

## WORK EXPERIENCE & PROJECTS

- 2025 MONTEL - FREELANCE UI/UX & GRAPHIC DESIGNER**

Led the full brand identity development process, including logo design, visual systems, and high-fidelity UI/UX web prototypes aligned with client strategy and target audience.
- 2025 LEDINA - FREELANCE BRAND DESIGNER**

Developed specialized wine label designs and established a cohesive visual brand presence.
- 2025 ONIRIA STUDIOS - CREATIVE INTERN**

Collaborated on international UI/UX and graphic design projects and managed social media content strategy and created engaging visual assets.
- 2024 FRAME14 - WEB DEVELOPER**

Designed and built a responsive WordPress website.
- 2023 NIVAGO - WEB DEVELOPER (INTERNSHIP)**

Designed and built web solutions using HTML, CSS, and PHP.
